

My name is Pauline Chambers and I am the Managing Director of DLK Social Care which is an employment business specializing in the provision of qualified social care staff to councils across the UK.

We have recently formed a partnership agreement with Gradle Gardner Martin from Elevate to deliver continued professional development training to our candidates.

We have found this training to be comprehensive and easily accessible for our candidates, and would highly recommend this training company.

Yours sincerely

A handwritten signature in black ink that reads 'p chambers'.
